DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse the claims of group III in the reply filed on 3/4/2005 is acknowledged. The traversal is on the ground(s) that Groups I and II should be examined together. This is not found persuasive because the applicant did not give any reason as to why they should be examined together.

The requirement is still deemed proper and is therefore made FINAL.

Claims 6-11, 13-18, 20-23 and 25-30 are being examined.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claim 6 is rejected under 35 U.S.C. 102(e) as being anticipated by Downs et al (US 6,226,618).

As to claim 6, Downs et al disclose a method for processing meta data of a media signal comprising: providing metadata digest for the media signal; and embedding metadata steganographically in the media signal wherein the metadata in the media signal includes a metadata digest. Cited reference discloses in Fig.6, wherein

inclusion of a metadata to validate authenticity (i.e., "this record includes a digest for metadata SC 620 which is used to validate its integrity).

Allowable Subject Matter

4. Claims 7-11 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

5. Claims 13-18, 20-23, 25-30 are allowed.
